WHERE TO BUY AMERICAN GASOLINE

You might want to pass this on. Take a look at WALMART.

WHERE TO BUY AMERICAN GASOLINE THIS IS VERY IMPORTANT TO KNOW.

Gas rationing in the 70's worked even though we grumbled about it.

It might even have been good for us!

Are you aware that the Saudis are boycotting American products?

In addition, they are gouging us on oil prices.

Shouldn't we return the favor?

Can't we take control of our own destiny and let these giant oil importers know who REALLY generates their profits, their livings? How about leaving American Dollars in America and reduce the import/export deficit?

An appealing remedy might be to boycott their GAS.

Every time you fill up your car you can avoid putting more money into the coffers of Saudi Arabia

Just purchase gas from companies that don't import their oil from the Saudis.

Nothing is more frustrating than the feeling that every time I fill up my tank,

I'm sending my money to people who I get the impression want me, my family and my friends dead.

The following gas companies import Middle Eastern oil
Shell.....

.....
205,742,000 barrels
Chevron/Texaco..... 144,332,000
barrels
Exxon
/Mobil..... 130,082,000

Dictator Hugo Chavez hates America and
openly avows our economic destruction!

We pay Chavez's regime nearly \$10 Billion per year in
oil revenues!

The U.S. . Currently imports 5,517,000 barrels of
crude oil per day from OPEC.

If you do the math at \$100 per b arrel, that's over
\$550 million PER DAY

\$200 BILLION per year! handed over to OPEC, many of
whose members are our confirmed enemies!

It won't stop here - oil prices could go to \$200 a
barrel or higher if we keep buying their product.

Here are some large companies that do not import
Middle Eastern oil
